***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 2-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 is rejected as being vague and indefinite when it recites "satisfying a requirement of claim 1"; the scope of the protection sought is not clear. There are several "requirements" recited in claim 1. Appropriate correction is required.

Claim 2 provides for a silver halide color photographic *light-sensitive* material, but since the claim does not set forth any components characteristic of a silver halide color photographic *light-sensitive* material, it is unclear what material applicant is intending to encompass.

***Allowable Subject Matter***

3. The following is a statement of reasons for the indication of allowable subject matter: Claim 1 is distinguished from the prior art by containing a compound represented by the instant formula (A) =  $R_{a1}-S(O)_3-R_{a2}$ .
